972-424-BLDG

IVR can be used to :
-Request Inspections
-Obtain Inspection Results
-Cancel and Reschedule Inspections

City of Plano -Building Inspections

Tel: 972-424-2534

IVR Plano

The City of Plano Building Inspections Department is pleased to announce the implementation of our new automated inspection scheduling system. This telephone system will provide callers with 24-hour access to schedule inspections, cancel inspections or find the results of an inspection.

IVR PLANO can be operated with a touch-tone phone. Additionally, to schedule inspections, you will need the Application Number, which is located in the Bold Print in the middle of your permit, and the inspection codes, which can be found on the back page of this brochure and on list of required inspections that was provided on the permit when it was issued.

IVR PLANO will guide you through each step of the process. However, in this brochure there are written instructions that will help to familiarize you with the system before you call. Once you become familiar with the system, you will find that it is not necessary to wait for the entire message (or directions) to be completed before entering a prompt.

During our normal business hours, **Monday through Friday, 8AM – 5PM**, you can still call Permitting Services at **972-941-7144** for assistance with other matters, but most inspection requests can be made using **IVR PLANO**.

Instructions

To Access IVR Plano

Dial 972-424-2534

Instructions

Press (1) TO SCHEDULE AN INSPECTION

Press (2) TO CANCEL AN INSPECTION

Press (3) TO OBTAIN INSPECTION RESULTS

Press (0) TO BE TRANSFERRED TO AN OPERATOR

To Schedule an Inspection

-To Access dial 972-424-2534

Enter Option 1 from the main menu

-Enter Application Number followed by the # sign.

-Select permit type

-The project address will be read back to you.

-Enter the three digit inspection code

-Select the day you would like the inspection scheduled for

To Cancel an Inspection

-To Access dial 972-424-2534

-Select 2 from the Main Menu

-Enter Application Number followed by the # sign.

-Select permit type

-IVR Plano will confirm the address

-Listen to list of inspections scheduled and select the one to be cancelled.

-If inspection ticket has already been printed an error will occur and will attempt to transfer you to the operator.

To Obtain Inspection Results

-To Access, Dial 972-424-2534

-Select 3 from Main Menu

-Enter Application Number followed by the # key.

-Select permit type

-IVR Plano will confirm the address

-The inspection results will be played from the most recent to the oldest result.

Helpful Hints

Don't forget when using **IVR Plano** you have to press the # key after each numerical entry when requested. If the key is not pressed, the system will not continue and will eventually disconnect you.

Because portable and cellular phones often have interruptions in the transmitting of information, please ensure that you have a clear connection to prevent any problems when using the **IVR Plano System**.

When first using the system it is important that you listen to the entire message at each step of the system. However, once you have become familiar with the procedures, you may move onto the next step by pressing the proper number at any time during the message.

Once the system has confirmed that your inspection has been scheduled, you may hang up. It is not necessary to listen to the remainder of the message unless you wish to schedule another inspection for this same project or to schedule an inspection for another project.
