

# Natural Trail Guidelines

While enjoying the natural trails at Oak Point Park & Nature Preserve, please help us protect the unique habitats found within the park by abiding these simple guidelines. Additionally, please practice "Leave No Trace" principles. These principles help protect the inspiring natural features of Oak Point Park & Nature Preserve. Please visit [www.oakpointpark.com](http://www.oakpointpark.com) for more information.

## Natural Trail Hours – Dawn to Dusk

Woodland creatures need time to forage, drink, rest and socialize. Please respect their free time and stay off of natural trails before sunrise and after sunset.

## Pedestrian Use Only

Natural trails are for pedestrian use only. Horses and bikes should stay off of these trails.

## No Bicycles

Bicycles to remain on concrete recreational trails.

## No Horses

Equestrian use limited to those areas designated as "Equestrian Area" or "Equestrian Link"

## Pets on Leash

For your pets safety and the wellbeing of the preserve's resident wildlife please do not allow your pet to roam free. Pets must be on a leash (no longer than 6ft) at all times.

## Remain on Trails

This is a natural habitat. Poison Ivy, venomous snakes, and other pokey, scratchy, itchy, stinging, and biting things live just off the trail. Insect repellent is advised.

## No Littering

Dispose of all trash appropriately. If you pack it in, please pack it out.

## Wet Conditions

Use caution after rainy days. Trails may be wet, muddy, or slippery. Rowlett Creek can overflow its banks during heavy downpours. Avoid nature trails during these times.

*Enjoy the Nature Trails*  
***Dawn to Dusk***

**Always  
Hike with  
a Buddy**
